

## Join the 'Healthy Schools Program'

**The Alliance is ready to work with you every step of the way.**

The Healthy Schools Program offers you free access to a wealth of resources and tools that will help your school become a healthier place for students to learn and for staff to work.

**There are two great ways to become involved with the Healthy Schools Program:**

- If you are a parent or community member looking to learn more about what makes a school healthy or if you are ready to help a school get healthy, you can join the Healthy Schools Program Network through the [www.healthiergeneration.org](http://www.healthiergeneration.org) website to get tips and tools that will support your efforts.
- If you are a school that is looking to take the first step to create a healthier environment, you can enroll your school at no cost to receive support and **start utilizing the Healthy Schools Builder<sup>®</sup> right away.**
