

**Building Bridges for Health Award
For Outstanding Contribution to Coordinated School Health**

The Award

The California State PTA, the California Department of Education (CDE), and the American Cancer Society (ACS) are collaborating to provide the “Building Bridges for Health” award of special recognition. This award will recognize outstanding efforts to promote coordinated school health at the **PTA unit, PTA council, and PTA district levels.**

Awards of recognition will be announced at the 2009 California State PTA Convention in **San Jose, April 30.** All three organizations, PTA, CDE, and ACS, share the common goal to advocate for the health, safety, and welfare of all children and the opportunity for a quality public education for each child.

Criteria

Awards will be based on the efforts of your PTA unit, council, or district activities to promote the well being of children, staff, and community. Using the United States Centers for Disease Control and Prevention (CDC) Coordinated School Health Model as a guideline, your PTA’s efforts in promoting school health will be rated on a scale of one to four: 1=limited evidence of accomplishment, 4=exceptional evidence of accomplishment.

Coordinated School Health Model – 8 Components
